

Berg-Hughes Center for Petroleum and Sedimentary Systems

Summer Fellowship Application

Page one of your application should have all information complete from section A below. Page two will address the proposal text and follow the prompts in section B. Section B must be no longer than 1 page! Additional pages may be used for cited references, and up to 3 figures maximum. Exceeding the 1 page text limit and figure limit will automatically disqualify your application.

Email your completed application to dspencer@tamu.edu by **April 29th, 2016** close of business (**5 PM**).

Section A - Applicant information: *(Please complete and return as a cover sheet with your application.)*

Full Name:

Program (MS or PhD) & Major:

Email address:

Advisor's Name:

Advisor's Signature:

Anticipated Graduation Date:

List of relevant publications (*abstracts, publications, talks, posters, in preparation, submitted, etc.*):

Thesis or Dissertation title:

One paragraph summary of your entire thesis/dissertation research:

Section B – Proposal: *(On a separate single page, please complete the following. Single spaced, 12 point font, standard margins.)*

Title of proposed summer research:

Proposal: *(In complete sentences and paragraphs, clearly state the objectives of your summer research and the hypothesis (-es) you are testing through your research. Briefly summarize analytical techniques or field work. Show how this proposed summer research contributes to your broader thesis/dissertation goals and research questions. Demonstrate how funding from the Berg-Hughes Center will be used to complete your summer 2016 research objectives (tuition and fees, analytical costs, field work expenses, etc.)*

Link to petroleum and sedimentary systems: *(brief discussion of how your proposed research contributes to petroleum science and sedimentology).*

References Cited *(may be separate page)*

Figures *(3 maximum, if needed, on separate page or pages)*
